Von Michelle O'Leary : The Huntress (English Edition) before purchasing it in order to gage whether or not it would be worth my time, and all praised The Huntress (English Edition):

KurzbeschreibungThe Hunter: Traumatized at a young age by the violent death of her parents, Mea Brin becomes a

Hunter, part of an elite policing force of the Planetary Coalition. She is the best of the best, ruthless and predatory on a hunt and driven by the memory of violence. But then she meets Seth Terrik, an escaped convict, and Regan Freya, a child recently orphaned. The pair make an impression on Mea that she can't ignore; she feels a deep empathy for the girl and in Terrik she sees reflections of herself. Her choices seem limited; duty demands that she capture the escapee and turn the child over to the proper authorities. But Mea is not one to allow duty to define her. She creates a new choice.

The Convict: Seth Terrik has spent more than half of his life in prison. All that he knows or cares about is survival and the fight for freedom until a trusting girl becomes his responsibility and a seductive Hunter offers him what looks like a second chance at life. The simple rules of his existence become much more complicated as he is forced to redefine the concepts of survival and freedom. What does a hardened criminal like him know of trust or love? Is he even capable of stepping beyond instinct and into human emotion?
