Von Suzy K Quinn, Devoted Books : The Ice Seduction (Bestselling Devoted Series Book 1) (English Edition) before purchasing it in order to gauge whether or not it would be worth my time, and all praised The Ice Seduction (Bestselling Devoted Series Book 1) (English Edition):

Kundenrezensionen Hilfreichste Kundenrezensionen 0 von 0 Kunden fanden die folgende Rezension hilfreich. An interesting mix of tension, erotic and a "real" fairytale Von Claudia I love the book series. It was easy to read. I read

them all in a few days. The nanny falls in love with Lord Patrick. Their love story and the stories about their enemies and families are very well written. It kept my interest from beginning to the end. It is a little bit like a fairytale in the real world with tension and +18 erotic scenes. I recommend it. If you liked it you should also read the "ivy series".

Received an email yesterday afternoon that this was available. So I bought and read it. I loved the story. There are many secrets and some will be discovered by Sera and Patrick. But living together isn't what it should be. Patrick is commanding, the head housekeeper is decisively and nothing's as it seems.
