Von Isabel Allende : The Infinite Plan: A Novel before purchasing it in order to gage whether or not it would be worth my time, and all praised The Infinite Plan: A Novel:

KundenrezensionenHilfreichste Kundenrezensionen0 von 0 Kunden fanden die folgende Rezension hilfreich. good start,the rest was fillingVon Cliente de i enjoyed the first chapter and because i read the sum of the days and find it awesome i wanted to try this one.big disappointment , the book doesnt make a clear point about what is trying to communicate and just mixes a bunch of events and trys to connect them with eachother at the same time exageratting

everything that happens and over praising some things(remember reading that latins cook amazing about 6 times)0 von 0 Kunden fanden die folgende Rezension hilfreich. A good, but not necessarily believable storyVon Ein KundeI enjoyed the book and found it an easy and fast read. It is a story about human nature, the need to find one's place and the journey through life. The characters do reflect the normal up and down emotions that we go through in life, but the characters are not necessarily always believable as a whole. For example, would the male leader of a latin barrio in LA be a follower of the made up religion of "The Infinite Plan"? Probably not. All the main characters seem so "extraordinary"; even the adopted nephew of Carmen is a math genius. The coincidences that occur to the characters in the book are even more unbelievable. So, if you want a good story, if not a necessarily believable one, then read the book. If, however, you like to read fiction that "could have happened", then pass.0 von 0 Kunden fanden die folgende Rezension hilfreich. This book is perfect.Von Ein KundeI think this is one of Allende's best books and the one that particularly reveals the strength of her insightful power. In a story told with her characteristic artistry, the author opens up not only the depth of a man's soul but also the essence of an era in a portion of the soul of American society. The characters in this story seem sometimes unbelievable, but that is what makes the book great. Each one of them is portrayed with exaggerated traits that make them distinctively symbolic. The fresh and honest perspective from which this story is told reflects the generous view of someone exploring American society with the curiosity of an outsider, and the understanding of a deep believer in the goodness and value of all human beings.

KurzbeschreibungIn *The Infinite Plan*, critically acclaimed, bestselling author Isabel Allende weaves a vivid and engrossing tale of one man's search for love and his struggle to come to terms with a childhood of poverty and neglect. It is the story of Gregory Reeves and his hard journey from L.A.'s Hispanic barrio to the killing fields of Vietnam to the frenetic world of a San Francisco lawyer. Along the way, he loses himself in an illusory and wrongheaded quest, and only by circling back to his roots can he find what he is missing and what he wants more than anything in life.Pressestimmen`The characters both convince and fascinate. The sense of place is stunning. Lyrical and passionate, Allende describes with equal vividness women preparing a feast in a slum back yard, a small town breathless in the heat of summer, or a battalion slaughtered by night on a mountainside. Allende's writing is supremely elegant.' Independent on Sunday`Devotees of Allende's *The House of the Spirits* will rejoice to find again in her new novel the magical storyteller's touch that transforms life into a compelling emotional adventure, leaving one breathless. A hopeful, warm-hearted, absorbing novel.'
