Von Lisa Henry : The Island (English Edition) before purchasing it in order to gage whether or not it would be worth my time, and all praised The Island (English Edition):

KundenrezensionenHilfreichste Kundenrezensionen0 von 0 Kunden fanden die folgende Rezension hilfreich. Not for the faint of heart.....Von SunneWhere to begin.....Shaw finally is in the heart Vornis inner circle, having the big bad crime boss trusting him and buying a million dollar painting. He also is going to meet more bad guys to make connections. Years of work brought him finally to the point he needed to be.But there is one flaw in all his plans. While waiting to meet the mob bosses - Shaw is gifted with Vornis latest Toy - a broken young man, drugged,

captured, tortured to be willing, abused. He doesn't want to see a person behind the shell, doesn't want to get attached but he also doesn't want to become a monster like the men he deals with. Lee is broken, two months in hell has left him without hope. But Shaw sees him, not the shell that is left of him, and he can't help but to cling to this little sliver on the horizon in his lucid moments. This is just the beginning..... The book is brutal in parts. You can't have a broken, tortured MC without witnessing some of it. It is very well written, developments absolutely believable. Some parts nearly broke my heart. The fascinating thing is the realization, that even the bad guys are not bad all the time...sometimes they appear to be normal. But most I loved the insight in Shaw's and Lee's mind. Shaw's struggle to keep his humanity and get his job done and especially Lee's clinging to sanity and his little steps back into life. Both men are growing to you during the book. I can't say more without posting spoilers, so you'd better read it. If you have read "Finding Zach" and thought that it was brutal - do not buy this book. Otherwise - it was a really good book, not superficial.

Kurzbeschreibung Shaw is in Fiji to sell a stolen painting to the crime boss, Vornis. It will be the deal of a lifetime, if Shaw can pull it off. But then Vornis parades his latest toy around in front of him captured DEA agent whose time is running out. It's none of Shaw's business, and it doesn't matter that under any other circumstances Lee would be exactly Shaw's type: he's young, he's hot, and he might even have a personality if they hadn't beaten it out of him. Too bad there's no way Lee is getting off the island. Too bad there's nothing Shaw can do for him. And too bad there are some lines that even Shaw won't cross. Keeping his hands off Lee proves harder than he thinks, but Shaw's not stupid enough to fall for the tortured captive of a dangerous crime boss, is he? If he did, it wouldn't be just his job he would be risking it would be his life. Kurzbeschreibung Shaw is in Fiji to sell a stolen painting to the crime boss, Vornis.
