bondVon T. BurgessMain story is great. Awkward and twisted James bond secret agent action with hot vampire mermaid. The second story was ok but I would've prefer some closure for ms Random instead...4 von 4 Kunden fanden die folgende Rezension hilfreich. Endlich ein richtiger Fall fr Bob Howard!Von Christoph Herdeg"The Jennifer Morgue" ist ein Sequel zu "The Atrocity Archives". Bob Howard, hauptberuflich eigentlich System- und Netzwerkadministrator bei "the Laundry" (aka "die Firma"), bekommt seinen ersten eigenen Fall.Ein skrupelloser und wahnsinniger Millionr will die Welt beherrschen, und zwar mit Hilfe eines U-Bootes, das den "Grossen Alten" zu nahe kam und von ihnen seither am Meeresgrund festgehalten wird.Mit einem wunderschnen weiblichen Dmonen an seiner Seite macht sich Bob daran, die Welt zu retten - in klassischer James Bond Manier gibt es in diesem Buch karibische Inseln und sexy Inselschnheiten, Doppelagenten, irre Schurken und zu mobilen Hauptquartieren gepimpte Frachtschiffe.Das einzige, was Bob Howard im Wege steht, sind...ausgerechnet...die Auditoren der Laundry, die die Rettung der Welt mit immensen brokratischen Hemmnissen ausbremsen.Wer "The Atrocity Archives" (im Deutschen: "Dmonentor: Die mysterisen Fille des Bob Howard 01") gelesen und fr gut befunden hat, kommt um "The Jennifer Morgue" nicht herum.0 von 0 Kunden fanden die folgende Rezension hilfreich. Funny and well written.Von Dr. Friedrich BoegeIt is amazing what the author makes out of an idea that on first glance seems awkward.While not as brilliant as the subsequent work of the author, it clearly has addictive the Stross touch.

KurzbeschreibungBob Howard, geekish demonology hacker extraordinaire for "The Laundry," must stop ruthless billionaire Ellis Billington from unleashing an eldritch horror, codenamed "Jennifer Morgue," from the ocean's depths for the purpose of ruling the world...From Publishers WeeklyIn this alternately chilling and hilarious sequel to The Atrocity Archives (2004) from Hugo-winner Stross, Bob Howard is a computer bergeek employed by the Laundry, a secret British agency assigned to clean up incursions from other realities caused by the inadvertent manipulation of complex mathematical equations: in other words, magic. In 1975, the CIA used Howard Hughes's Glomar Explorer in a bungled attempt to raise a sunken Soviet submarine in order to access the Jennifer Morgue, an occult device that allows communication with the dead. Now a ruthless billionaire intends to try again, even if by doing so he awakens the Great Old Ones, who thwarted the earlier expedition. It's up to Bob and a collection of British eccentrics even Monty Python would consider odd to stop the bad guy and save the world, while getting receipts for all expenditures or else face the most dreaded menace of all: the Laundry's own auditors. Stross has a marvelous time making eldritch horror appear commonplace in the face of bureaucracy. (Dec.) Copyright Reed Business Information, a division of Reed Elsevier Inc.
