Von Heather Graham : The King's Pleasure before purchasing it in order to gage whether or not it would be worth my time, and all praised The King's Pleasure:

KundenrezensionenHilfreichste Kundenrezensionen0 von 0 Kunden fanden die folgende Rezension hilfreich. The King's PleasureVon Kindle CustomerI read most books on Love Stories that takes place in and about Scottish men or women. This is one of the best book. I have read a couple of her books and found them to be enjoyable to read. Once I start reading this book, I found it hard to put it down. I kept wondering what was she going to do next to get Adrien

mad at her. 1 von 1 Kunden fanden die folgende Rezension hilfreich. An Okay Read Von Tina EI'm not really sure what to make of Shannon Drake. After reading "Beneath a Blood Red Moon" I thought she was fabulous. After reading "Blue Heaven, Black Knight" I thought she was awful. After reading "The King's Pleasure" I'm sort of leaning toward the fact that she's a good writer, but she won't ever be one of my favorite authors. "The King's Pleasure" was well written. If you're a history buff, you will no doubt love this book. I am not a history buff. I think fans of historical romance fall into two different categories: those who love rich, detailed accounts of history woven all throughout the novel, and those of us who enjoy the setting but don't wish to read a dissertation on medieval life. I am definitely of the latter group. I love the settings provided by historical authors, but I don't care to read blow by blow accounts of a particular battle any more than I would want a blow by blow account of a modern battle while reading a contemporary novel. So I found myself glossing over the majority of this book. The next problem I had with this novel was that the heroine was stubborn to the point of ridiculousness (a common attribute of all Drake's heroines). Because of some vague, obscure vow she made to her mother on her deathbed, she chose to betray her husband and father repeatedly to keep it. Who would do this in real life? It was too far-fetched and aggravating. The last reason I found this novel less than compelling was because I simply don't enjoy her style of writing. Drake uses exclamation points after every other sentence which, after awhile, has the same effect as writing all in caps throughout the entire book. Exclamation points were used to the point of ridiculousness. Even if the heroine was whispering, whatever she said seemed to warrant an exclamation point to Drake's way of thinking. It got to be too much. If you enjoy Drake in general, you will probably love this book. If you enjoy a lot of conflict between the hero and heroine and tons and tons of "rich, historical detail" (a phrase used by critics I've since come to steer clear of), you will like this book. If you don't fall into the above categories, save your money. 0 von 0 Kunden fanden die folgende Rezension hilfreich. Save you money. Von Ein Kundel've been reading Shannon Drake's novel for some time, though I confess I do not know why. All her books are basically the same, except the names have been changed for the hero and heroine and the settings are slightly different. The King's Pleasure is no different. I found the plotline boring and unoriginal, except of course for the extremely long and tedious battle scenes. The hero was, as usual, overly cruel and not particularly attractive, and the heroine was awful. Danielle was stubborn to the point of stupidity. She was a spoiled little brat with no loyalty. The author repeated over and over again how clever she was, yet she showed not a sign of intelligence throughout the whole book. The woman was stupid and spoiled and I do not understand how anyone could have liked her. When Danielle and Adrien finally decided they loved each other at the end I simply could not understand why. I found the age difference between the hero and the heroine disturbing as well. I am young myself and the idea of marrying a man fifteen years older than me is repugnant. I do not understand why Shannon Drake insists on doing this, and quite frankly, I don't think I can stand much more of it. The only things I liked about this book were the parts with Edward, the black prince of Wales in them. Oh yes, and the cover, which is why I bought the book in the first place. Frankly, this is supposed to be a romance novel, but I did not find it in the least romantic. Save your money and your time and don't buy the book.

Kurzbeschreibung When a French woman is married off to the handsome Scot who conquered her town, she is determined not to let him conquer her heart as well
