Nice attempt to imagine collapse of societyVon KundeRather fresh set of ideas on how after apocalypse society would look like. The book itself is easy reading.Although for me who likes to read "all at once" it's now annoying to wait for the next books in the series.0 von 1 Kunden fanden die folgende Rezension hilfreich. Give us more !!Von T.K.To be serious, I cant say how badly I want to read the next book.Once more you deepen the connection to the characters and want to know what happens next.The third book lays it's focus a bit more on the things happening in town and the creation of a resistance/political intrigue which will have a massiv impact for nearly all people.The series is amazing and definitely worth reading, everyone should give a try.
