Beautifully written - total win! Von Riina Loved how 'raw' this felt. Lonely, raw, and sweet. I was amazed at the beautiful writing! I knew it was going to be awesome, but it was just so, so so good to read! I can't explain it right, hah. Just wonderfully written; perfect story flow for my taste. Another thing I adore about Bey's stories; they're in the here and now, they're just THERE, you know? And always so wonderfully character driven! Not to mention your characters always dive straight into my heart. Just how I like it :) Thank you, Bey. Looking forward to another installment!

KurzbeschreibungAll James wanted was a little solitude at his favourite resort: bright sunshine overhead, soft, white sand underfoot, and a hammock to read in while the warm breeze rustles through the coconut palms and almond trees. However, when an old acquaintance shows up, and James is obliged to share his beach, a profound exchange over a bottle of rum leads to a lust-fuelled encounter in the dark. Reeling from the intensity of the drunken tryst, James decides to cut his vacation short rather than face what he's kept hidden under mountains of denial. However, his escape is thwarted when Rudie, handsome and plainspoken, calls him out on his behaviour and makes him see that life needn't be spent running away from his desires. Set at a rundown old resort on a small Caribbean island, *The Last Nights of The Frangipani Hotel* is a story about letting go of fear and learning that passion and love can be found in the most unexpected of places.

ber den Autor und weitere MitwirkendeArtist, Writer, Dog Lover - <http://www.beydeckard.com> Canadian indie author Bey Deckard wanted to be many things when he grew up: veterinarian, vampire, paleontologist, crane operator, sniper, ophthalmologist, brain surgeon, marine biologist, lawyer, forensic anthropologist, set designer, underwater archaeologist, mortician, rock star, philanthropist... but writer was not on the list. Artist wasn't there either because he'd been drawing and paintings since he was a tot and figured that made him one already. Freelance graphic design paid the bills while Bey levelled up with a BFA in Art History (minor in Anthro). However, he landed in the tech world where the degree was worth FA, and stayed there for over a decade before leaving, thoroughly sick of working for The Man. That's when the writing started, and Bey still can't believe it wasn't on that list above because he absolutely loves doing it and can't really imagine doing anything else. Bey's books aren't quite romance and aren't quite erotica, and they jump from genre to genre, but they're all character driven and he likes to think they're interesting. These days, if Bey's not writing or working on graphics, you'll find him posting pics of his best buddy and constant canine companion Murphy, cooking up some tasty vegetarian eats, hanging out on facebook, or sitting back to watch a movie with a drink (or many). As a reader, Bey's usual staples are biographical works, medical research papers, all sorts of history books (nautical, medieval, and medical being his favourites), science fiction, fantasy, horror, KGB/CIA thrillers, and graphic novels.
